

P2319-KP

Conspec's **Carbon Monoxide/Smoke Sensor** was designed to monitor for the presence of carbon monoxide gas and smoke particulates in and around areas where conventional carbon monoxide monitors may not provide a completely reliable indication of a hazardous condition. This device was developed due to the increased use of lubricants and mechanical components that produce little or no carbon monoxide gas when heated or burned. The combination Carbon Monoxide/Smoke Sensor combines Conspec's Carbon Monoxide Monitor with a Smoke Sensor in a single, Intrinsically Safe, MSHA approved enclosure.

The **P2319 Carbon Monoxide/Smoke Sensor** is MSHA approved for use in permissible areas of underground coal mines (Intrinsically Safe). The smoke sensor assembly is easily removed for cleaning, testing and/or replacement.

FEATURES

- Rugged NEMA 4X Weatherproof, Non-Metallic Enclosure
- Long Sensor Life, Quick and Easy Replacement
- Carbon Monoxide Sensor Range: 0 to 50, 0 to 100, 0 to 500 PPM
- Automatic Restart After a Power Interruption
- 4-20 mA Or 0- 5 Volt DC, Analog Output (User Selectable)
- 24 Volt DC Power Input
- Dimensions: 11"H x 8"W x 5"D or 13.5"H x 10"W x 7"D (with Relays)
- Weight: 5 Lbs
- One Year Limited Warranty

OPTIONS AND SPARE PARTS

P1830 Replacement CO Sensor Cell	P2065 Smart Card
P2325 Replacement Smoke Sensor Assembly	P1643-2 Remote Mount Horn & Strobe w/Enclosure
120 Volt AC Power Supply (Integral)	

OTHER SMOKE SENSOR MONITORS

P2384 Smoke Sensor with Relay Output (Provides Normally Open/Normally Closed Dry Contacts)	P2500 Smoke Sensor with Conspec Accessor (B21) (For use with Conspec's PC based monitoring system)
